PERMISSION FOR INHALERS - Iowa law requires that students who carry inhalers throughout the school day must have written parent consent and written prescriber consent with the purpose of the medication, dosage, times or special circumstances under which the medication is to be given. If your child is to carry his/ her inhaler with them at all times, please have the prescriber fill out the information at the top of the page AND both sign below.

I have instructed the above named student in the proper way to use his/her inhaler. It is my professional opinion that he/she should be allowed to carry and use that medication by himself/herself.

IOWA CITY COMMUNITY SCHOOL DISTRICT
REQUEST TO ADMINISTER MEDICATION IN SCHOOL (**SECONDARY**)
INFORMATION AND PROCEDURES

Medications may be administered at a secondary school with written authorization from the parent/guardian and with a prescriber's written order for prescription medications. All medications should be taken before or after school hours whenever possible. However, it is understood that certain drugs may be required during the school day. These students should have medication available and administered in a manner which is compliant with school district policy.

1. No medication will be administered to a secondary student in school or during school sponsored activities without a parent/guardian written authorization and a prescriber's written order for prescription medications. Parents are responsible for obtaining the prescriber order.
 - a) **Prescription medication:** A current pharmacy labeled container can serve as the written prescriber's order. A second labeled medication container can be obtained for school use by asking the pharmacist.
 - b) **Over the counter/non-prescription medication** will be given only with parent/guardian written authorization. Over the counter/non- prescription medications are to be provided by the parent/guardian and sent to school in the original medication container with the student's name attached. This procedure will safeguard your child against over medication and possible unforeseen reactions.
2. The parent/guardian is responsible for submitting a new prescriber's order form to the school each time there is a change of dosage or time of administration. Prescriber's orders may be faxed to the school.
3. Students who must carry inhalers or emergency medications (epi-pen) throughout the school day need a written prescriber's order on file in the health office. The order must specifically state the purpose of the medication, dosage, times for medication to be given, and/ or special circumstances under which the medication is to be given; and that the student must carry the medication at all times.
4. To ensure the safety of all children, we request that a parent or another responsible adult deliver all medications to the office and/or health office. The medication will be kept in a locked storage box.
5. The parent/guardian will inform office/health office staff of the number of tablets/capsules that are brought to school.
6. The first dosage of any new prescription must be given at home so the child can be more closely observed for possible side affects and/or adverse reactions.
7. The parent/guardian is responsible for notifying the school when a medication has been discontinued or changed.
8. The Iowa City Community School District does not assume responsibility for medication not prescribed by a physician/ prescriber or medication administered by the student himself/herself.
9. No medication will be continued beyond the school year in which it is ordered.
